

This test checks to see whether a program correctly accepts input via the GIMMEH statement. It keeps asking for input until the user enters QUIT.

HAI

I HAS A var

GIMMEH var

IM IN YR loop WILE DIFFRINT var AN "QUIT"

VISIBLE var MKAY?

GIMMEH var

IM OUTTA YR loop

KTHXBAI

Output:

LOL>> 2

LOL>> 3

LOL>> test

LOL>> hello

LOL>> this

LOL>> is

LOL>> output

LOL>> QUIT
